

FIRE DEPARTMENTS

FIRE DEPARTMENT CLEANING PROGRAMS

Responsibility starts with the right cleaning program. Patriot Chemical has programs specifically designed to help fire departments effectively and safely clean while minimizing costs.

A division of:

Laundry Products

ON-PREMISE LAUNDRY CHEMICALS

The Patriot Chemical Laundry System delivers a hands-off, maintenance-free method of doing laundry. Patriot Chemical strives to utilize green chemistry to promote environmental responsibility. These laundry products contain no phosphates, solvents, NPE or harmful chemical for the environment.

It's also about training and educating you and your employees on the importance of proper laundering procedures. Effective training is key to a successful cleaning program. We can provide quality solutions that incorporate practical experience into your laundering procedures.

Fire House Detergent

A controlled foaming, detergent system which rapidly penetrates stubborn soils allowing them to be rinsed away quickly without long numerous rinse cycles. Mildly alk line by nature, it provides superior results. Meets the NFPA 1851 Standards.

Green Oxygen Destainer

Effective on a broad range of stains to knock-out stubborn soils, rendering whites -white and colors true. Also protects fabrics from deterioration commonly found in chlorine systems.

Orange Crush

A powerful citrus based spotter and Laundry additive.

SPECIALTY PRODUCTS

Staphguard

Use this EPA registered sanitizer for sanitization where washed fabric is a concern.

Firehouse Fleet Wash

A multi-functional truck and car wash that produces a robust foam and quickly rinses from all surfaces.

Janitorial Products

JANITORIAL & FLOOR CARE

The Patriot Chemical housekeeping programs utilize high quality products, creative training solutions, and expert professional support to help keep our facilities looking their best. Effective training is key to a successful program. Patriot's highly trained field sales representatives provide on-site support and training and will customize a program that is suited to your specific needs.

OUR COMMITMENT TO SERVICE

Patriot Chemical is a service division of Synthetic Labs that focuses on servicing of restaurants, cafes, schools, country clubs, hospitals as well as acute care. We offer a complete line of equipment and products.

Chemical manufacturing services work in concert to provide state of the art formulations, reliability, and consistency of product.

We give our clients and future clients all their answers quickly and accurately, therefore achieving our goal of excellence. We give you prompt and professional service. Our preventive methods eliminate problems before they can occur. Our skilled technicians offer suggestions and inform you about new technology that might help your establishment run more efficiently. Don't forget, we train on-site!

"Total Service" Concept

1. Maximize our performance by having total control and responsibility for results and quality.
2. Simplify "source of responsibility" for our clients.

As an example of our total responsibility for ware washing and laundry results: We provide dish machines and/or laundry injection equipment install, supply proper chemicals, train personnel on care of equipment and proper procedures, use of specialty cleaning products and mixing stations, submit service reports to management with information regarding water hardness, temperature, result and procedures.

If there is any type of equipment problem, it is our responsibility to rectify it. Our skilled service technicians are available 24 hours a day and 7 days a week.
